Subject: Certificate of Cooperation with California Proposition 65

Dear Customer,

California Proposition 65 (the Safe Drinking Water and Toxic Enforcement Act of 1986) refers to the California legislation that was intended by its authors to protect California citizens and the State's drinking water sources from chemicals known to cause cancer, birth defects or other reproductive harm, and to inform citizens about exposures to such chemicals.

Proposition 65 requires businesses to notify Californians about significant amounts of chemicals in the products they purchase, in their homes or work-places, or that are released into the environment. By providing this information, Proposition 65 enables Californians to make informed decisions about protecting themselves from exposure to these chemicals. Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

The electronics industry has standardized around the European RoHS and REACH standards for reporting on chemicals which many be hazardous to the environment or humans. Technologic Systems has followed the rest of the industry's lead in this matter and actively screens our component selection to comply to the RoHS and REACH standards.

Unlike RoHS and REACH standards there are no mechanisms for collecting and cataloging California's Prop 65 impact on electronic components. California is uniquely aggressive in requiring labeling and warnings for products that contain any of the listed substances including common house hold items and many others which are regularly incorporated in electronics components. As such Technologic Systems takes a conservative stance and warns customers to use prudent caution when handling electronic components.

Technologic Systems does not knowingly discharge any chemicals into sources of drinking water.

Technologic Systems sells electronic devices which are comprised of many chemicals. Our products may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Wash hands after handling.
